

Nomination: #1

**Reason for
Nomination:**

After having the home painted in 2022, we had to have the septic tank replaced in 2023 which took a toll on our home's curb appeal. We had no plants growing in the front yard and looked at many examples of desert friendly landscaping while including colorful flowers. We added a row of rose bushes along the left privacy fence, repurposed a round planting area on the west side with desert plants surrounded by DG, added a planter area along the right privacy fence, a dry creek bed with plants surrounding Arizona river rock, Mexican Beach Rock, and a center boulder. Then we added plants surrounded by rock beside the house on the left and right side. Finally, we added a round planter in the center and rocked the entire yard for a clean look. Before landscaping I repainted the wishing well built years ago to match the home's new colors.

Two of the local neighborhood walkers stopped by to compliment our new look and one said that it made her feel happy when she walked by.

Nomination: #2

**Reason for
Nomination:**

This 1961 single family residence was purchased in 2018 by the current owners. Since the purchase, the new homeowners have completely transformed the curb appeal of this house. The original, outdated, beige house was re-color coated, and the house is now gray. A new roof, new loft windows, a new front door, and a new garage door were installed. The landscape design of the yard was completely upgraded. The previous patched, asphalt driveway was removed. A new cement driveway was installed, and the driveway approaches were replaced. The dead trees in the yard were removed and the yard was rock-scaped. Drought-tolerant plants including red yucca, hot pink bottlebrush, and lavender were planted. A new flag pole and a new mailbox were installed along with solar lighting that helps softly illuminate the house at night. The complete transformation of this residence shows the pride these owners have in the curb appeal of their home. The improvements they have made to their house and yard makes them deserving recipients of the City of Hesperia's Pride Enhancement Program.

Nomination:	#3
Reason for Nomination:	Over the past few years, we have dedicated significant time, energy, and pride into enhancing the appearance of our home. Our landscaping features drought-tolerant plants, UV-protected artificial grass and thoughtful rock-scaping, all meticulously maintained to create a welcoming and sustainable environment. we have also invested in solar and photovoltaic exterior lighting to beautifully and efficiently illuminate our property while promoting energy conservation. We frequently receive compliments from neighbors and visitors on our home's curb appeal, and we take great pride in contributing to the beauty and spirit of our community. Our home is a reflection of our love for Hesperia, and we are excited to be part of a program that celebrates that pride.

Nomination: #4

Reason for Nomination: I am nominating my home for the Pride Enhancement Program because it is an oasis in the middle of the desert. It is an oasis for insects, lizards, birds and on one occasion a toad. I call my style chaos gardening because I have no plan but to make my garden a haven for our family and the wildlife that thrives and depends on it.
