

Nomination:	#1
Reason for Nomination:	<p>After having the home painted in 2022, we had to have the septic tank replaced in 2023 which took a toll on our home's curb appeal. We had no plants growing in the front yard and looked at many examples of desert friendly landscaping while including colorful flowers. We added a row of rose bushes along the left privacy fence, repurposed a round planting area on the west side with desert plants surrounded by DG, added a planter area along the right privacy fence, a dry creek bed with plants surrounding Arizona river rock, Mexican Beach Rock, and a center boulder. Then we added plants surrounded by rock beside the house on the left and right side. Finally, we added a round planter in the center and rocked the entire yard for a clean look. Before landscaping I repainted the wishing well built years ago to match the home's new colors.</p> <p>Two of the local neighborhood walkers stopped by to compliment our new look and one said that it made her feel happy when she walked by.</p>

Nomination:	#2
Reason for Nomination:	I am nominating my home for the Pride Enhancement Program because it is an oasis in the middle of the desert. It is an oasis for insects, lizards, birds and on one occasion a toad. I call my style chaos gardening because I have no plan but to make my garden a haven for our family and the wildlife that thrives and depends on it.

Nomination: #3

Reason for Nomination: An incredible transformation from outdated stucco and a dirt lot to beautiful drought resistant landscaping. My wife and I worked incredibly hard on this makeover, doing 90% of the work by hand. We hope you like it as much as we do!

Nomination:	#4
Reason for Nomination:	[Name Redacted] has completely transformed his home. It was all dirt from the beginning, he landscaped it all and it makes the neighborhood and area look great. We get so many compliments for the gates, and the landscaping. People will drive by just to look at the house!
